DETAILED ACTION

1. Formal Matters

- A. The Amendment dated 7/12/04 has been entered into the record.
- B. Claims 1, 4, 5, 8, 9, 11, 12, 15, 72, 75 and 78 are pending and are the subject of this Office Action.
- C. All Statutes under 35 USC not found in this Office Action can be found, cited in full, in a previous Office Action.

2. Claim Objections

- A. The objection of claim 1 has been withdrawn in view of Applicants' amendment to the claim.
- B. The syntax of claim 5 could be improved by adding the word "consisting" after "claim 1."
- C. The syntax of claim 8 could be improved by replacing the term " , wherein" with "comprising" and adding the term "which" after "claim 1."
- D. The syntax of claim 11 could be improved by amending the claim to recite "A [The] peptide...of claim 1 [8] comprising...peptides which are linked..."

3. Claim Rejections - 35 USC § 112, first paragraph – new matter

- A. All rejections under 35 USC 112, first paragraph, have been withdrawn in view of Applicants' amendments to the claims.
- B. Claims 1, 4, 5, 8, 9, 11, 12, 15, 72, 75 and 78 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claim 1 recites "at least 12." No support for this limitation can be found in the specification. The original claims recite "at least 5" and "5-20." However, the original claims do not recite SEQ ID NO:12. Furthermore, SEQ ID NO:12 is 26 residues and the original claims only recite up to "20."

Art Unit: 1647

4. Claim Rejections - 35 USC § 112, second paragraph

A. All rejections under 35 USC 112, second paragraph, have been withdrawn in view of Applicants' amendments to, or cancellation of, the claims. However, new rejections appear below.

B. Claim 21 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted steps are: a purpose for culturing the cells in a medium comprising a peptide of claim 1. The specification does not disclose a method of simply culturing cells, only assay methods using the peptides of claim 1.

C. Claims 8, 9, 11 and 72 are confusing. Claim 8 recites a "peptide composition." However, it appears that peptides are the only material in the "composition." It is believed that the claims should recite "a peptide compound," or "a peptide conjugate."
